

The Right Tool

You have probably known for some time that lasers are highly effective tools to solve bird problems. The remaining problem was - lasers that were powerful enough to do the job cost too much.

Introducing the Fly Away™ laser

Powerful, low cost, high quality laser proven effective with extensive field use

The Fly Away™ laser offers all these features:

- 30mWatt output power, class 3B, green laser
- Birds do not learn to ignore it
- Safe for both humans and birds
- Large beam to assure targeted birds can't overlook it
- Effective range up to 1 mile
- Rugged all aluminum construction
- All external joints and on/off switch sealed to allow use outdoors even in light rain
- "Flashlight" style for ease of handling and light weight
- Powered by 2 "D" cell flashlight batteries – Lithium and rechargeable batteries OK
- Lockable carrying case
- 1 year parts and labor warranty
- 5 to 7 year expected life
- Only \$995 – discounts available for larger quantities
