The Avian Dissuader®

Model **BDL-532 Green**

The BDL-532 Avian Dissuader® provides the ability to work birds as much as 3/4 mile away while eliminating the need for noise, chemicals, climbing, specialized tools or training.

Specifications –

Size - approx 8 inches in length

Laser wavelength – 532nm

Laser output - 30mW (class3b)

Weight - <2 lbs

Power – 9V Alkaline battery

Effective distance – > 750 meters

Features –

- Tested and proven effective dispersal for many species of birds, but designed primarily for diurnal birds such as: Starlings, Grackles, Sparrows, Swallows and Pigeons and for removing any species of bird in high ambient light. Works well against night flying and aquatic birds also.
- No noise – no chemicals - means fewer complaints about use.
- Designed with integral key-lock, trigger “safety”, and 3-second trigger on delay for maximum safety.
- Requires minimal training (5 – 10 minutes).
- Clear large open areas in minutes.
- Tests have shown that repeated use (3 to 10 days, depending on species) substantially reduces or eliminates the targeted population, requiring only occasional follow-up to effectively control population presence.
- Light, easy to maneuver and operate with pistol grip handle and trigger for off/on.
- High quality – aluminum, stainless and brass construction with rugged design assure years of trouble-free service.
- Minimal maintenance - only requires lens cleaning and battery replacement.
- Lockable, weatherproof carrying case for storage provided at no extra cost.
- Low Cost – single unit sells for \$1,995 - discounts available for multiple units.
