

The Avian Dissuader®

Model **BDL-650HP Red**

The BDL-650 Avian Dissuader® provides the ability to work birds as much as 1 mile away while eliminating the need for noise, chemicals, climbing, specialized tools or training.

Specifications –

Size - approx 8 inches in length

Laser wavelength – 650nm

Laser output - >80mW (class3 IIIb)

Effective distance – > 2,000 meters

Weight - <2 lbs

Power – 9V battery

Variable beam size

Features –

- Tested and proven for effective dispersal of many birds: Canada geese, Ducks, Crows, Gulls, Vultures, Cormorants, Egrets, and most other species of waterfowl, wading, and night flying birds.
- No noise – no chemicals - means fewer complaints about use.
- Designed with integral key-lock, trigger “safety”, and 3-second trigger on delay for maximum safety.
- Requires minimal training (5 – 10 minutes).
- Clear large open areas in minutes.
- Tests have shown that repeated use (3 to 10 days, depending on species) substantially reduces or eliminates the targeted population, requiring only occasional follow-up to effectively control population presence.
- Light, easy to maneuver and operate with pistol grip handle and trigger for off/on.
- High quality – aluminum, stainless and brass construction with rugged design assure years of trouble-free service.
- Minimal maintenance - only requires lens cleaning and battery replacement.
- Lockable, weatherproof carrying case for storage provided at no extra cost.
- Low Cost – single unit sells for \$1,895 - discounts available for multiple units.
