

The Avian Dissuader®

Model BDL-532SHO (Green)

**THE
BRIGHTEST
IDEA
in
BIRD
CONTROL**

The BDL-532SHO Avian Dissuader® provides the ability to work birds as much as 3 kilometers away plus the ability to manage targeted birds in flight.

All this while working in daylight.

Join the many commercial and military airports already enjoying success with the Avian Dissuader® laser. Existing Airport users include:

- Several regional and international airports in the US including JFK and Dulles airports in New York
- Most US Air Force, US Navy and US Marine Air Bases around the world
- Commercial and military airports in England, France, Italy, Germany, Sweden, Norway, the Netherlands, Denmark, Spain, Portugal, Poland, Serbia, Mexico, China, Dominican Republic, Panama, Russia, South Africa, Australia and others.

Specifications –

Size - approx 8 inches in length
Laser wavelength – 532nm
Laser output - 80mW (class 3b)

Weight - < 2 lbs - 1 KG
Power – 9V Lithium Ion battery
Effective distance – > 3 Kilometers

Features -

- Now available with internal limit switch to prevent the laser from operating if pointed up or above the horizon. This is a no-cost option.
- The limit for lasers has been their inability to be effective during the day – the BDL532SHO overcomes this limit by being 175% brighter than the BDL-532. This powerful laser will scare birds away in all but the brightest direct sunlight.
- Tested and proven effective dispersal for most species of birds, especially effective on diurnal birds and for removing any species of bird in day light.
- Effective 24 hours a day – only limitation is direct sunlight on target.
- No noise – no chemicals - means fewer complaints about use.
- Designed with integral key-lock, trigger “safety”, and 3-second trigger on delay for maximum safety. LEDs show when the laser is armed and when trigger is depressed.
- Requires minimal training (5 – 10 minutes).
- Clear large open areas in minutes.
- Light, easy to maneuver and operate with pistol grip handle and trigger for off/on.
- High quality – aluminum, stainless and brass construction with rugged design assure years of trouble-free service.
- Minimal maintenance - only requires lens cleaning and battery replacement.
- Safety glasses, red dot sight for aiming (shown above) and lockable, weatherproof carrying case for storage provided at no extra cost.
